---	--	--	--	---------------------	--	---

1,766,094 trips were recorded in April 2019.

1,924,563 trips were recorded in May 2019.

There was an increase of 4.3% in total trips from April to May.

This could possibly be due to weather factors.

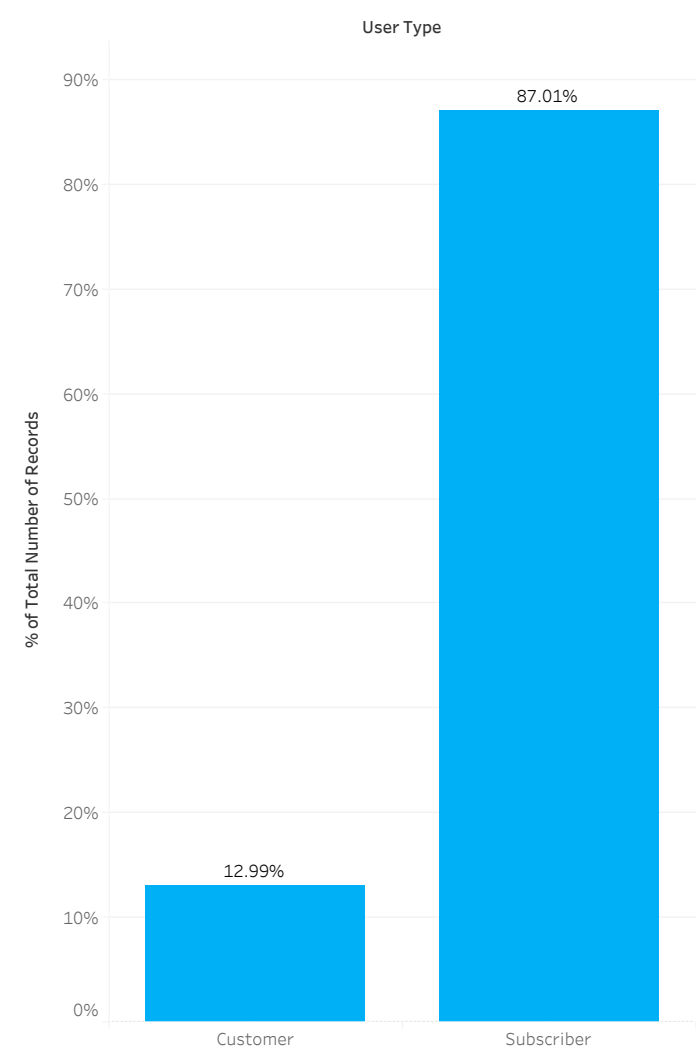

One hypothesis could be: as the weather becomes warmer and dryer, more people tend to commute from one place to another using bikes.

Another hypothesis could be: increased tourists in May as the weather becomes warmer.
